Excellent & informative – thanks so much. Historian & project manager were very informative. [Trust staff member] Clay [Harrell] gave a good tour.

- Sally Freeman

The Presidio Theatre (which is located on the former Presidio Army Post) is a fascinating, historic, landmark that needs necessary renovation and rehabilitation. This venue can be admired for its 1939 Art Deco architecture & design by both film and history buffs now that it has been shut down as a public movie theatre and entertainment venue. The floor plans for the renovation and rehabilitation should be reviewed by the Presidio project team and taken into serious consideration. Inspiration and aspiration should be of utmost importance to both visitors and residents of the (local) Presidio community.

- Frank Vallecillo, Friends of the SF Public Library

Great! Congrats on preserving history. Treasure!

- Imani Harrington

The repurposed building could provide an opportunity for interpreting the WPA, Federal Theatre Project and New Deal contributions to the Presidio.

- Harvey Smith, Living New Deal
