

Super Bowl 50 festivities are about to begin in downtown San Francisco. While the celebration may be a blast, it will also cause headaches for those trying to get around the City – and out to the Presidio.

PresidiGo Downtown Shuttle Changes

The PresidiGo Downtown Shuttle, the free roundtrip transit service to the park, will be affected by road closures from **Saturday, January 23 through Friday, February 12.**

During this time, the PresidiGo Shuttle stop normally located at Drumm and California (in front of the Hyatt Hotel) will be CLOSED. Passengers must instead pick up the shuttle at either the Davis and California stop (near Embarcadero BART) or at the Howard and Main stop (near the Transbay Terminal).

The shuttle will stop at Davis and California to drop off AND pick up passengers and then continue to the Transbay Terminal stop at Howard and Main. Due to the configuration of the detours, the shuttle will NOT make another pick up in downtown after it departs from Howard and Main. **Passengers are advised that the scheduled pick up times from Davis and California will be 5 to 10 minutes EARLIER than the regularly scheduled pick up times from Drumm and California, depending on traffic conditions.**

Track the PresidiGo Shuttle

Use the real-time tracking map at www.presidiobus.com to find out when the next shuttle will arrive at Davis and California. If you have questions, contact the Presidio Trust Transportation Department at (415) 561-2739 or transportation@presidiotrust.gov.
