

Dear Prospective Presidio Client:

The Presidio Trust is pleased to hear of your interest in holding a special event at the Presidio. As you may already know, we offer a broad selection of attractive historic venues that can provide the perfect setting for your event, should you choose to hold it at the Presidio. However, it is imperative that you be aware of the possibility that your event could be affected, and possibly seriously affected, by the ongoing work of the Presidio Parkway (Doyle Drive) Replacement Project. Doyle Drive is located almost entirely within the Presidio.

The Presidio Parkway (Doyle Drive) Replacement Project is a joint effort of the San Francisco County Transportation Agency and the California Department of Transportation (Caltrans).

Although traffic was shifted to the major new roadway elements in July 2015, construction is expected to continue through 2016. As the project progresses, there will continue to be construction impacts within the Presidio. Potential impacts include road closures and detours, changes in parking locations and availability, night and weekend work, noise, dust, vibration, truck traffic and material hauling, major earthwork, landscape installation and changes to views. You are advised to consider the possible effect on your event from these impacts.

Please be aware that the Presidio Trust has no control over the timing, duration, or intensity of the project's construction impacts. Accordingly, you must be responsible for diligently keeping yourself apprised of the project's plans as the date for your event approaches. You are advised to check often on the project's status. Information from the project can be obtained at the project's website: www.presidioparkway.org. You may also contact the project via phone at 415 295 4636 or email info@presidioparkway.org.

About the New Presidio Parklands Project

Through this effort, the elevated highway that cut through the Presidio for seven decades on its path to the Golden Gate Bridge has been replaced with an at-grade roadway hidden from public view by discrete tunnels. This creates a singular opportunity to establish a magnificent 14-acre landscape on top of the tunnels, integrating the San Francisco Bay waterfront with the Presidio's historic core. Once completed, park visitors will enjoy an unparalleled experience of the Golden Gate – spectacular views, food and amenities, free public events, pathways and vista points, and gathering spaces where people can create their own experiences. To learn more about the project, please visit the following website: <http://newpresidioparklands.org/>.

Thank you for considering this information as you plan your event. If you have any questions unrelated to the Presidio Parkway Project, please contact our Special Events Staff at 415 561 5444. Questions related to the work and impacts of the Presidio Parkway (Doyle Drive) Replacement Project should be directed to Presidio Parkway staff in accordance with the contact information above.

Cordially,
Presidio Trust Event Venue Team

I acknowledge that I have been advised of the ongoing work of the Presidio Parkway (Doyle Drive) Replacement Project and its potential negative impacts on an event that I plan to hold in the Presidio. I hereby release the Presidio Trust and its directors and employees from any liability, claims, or damages that may arise from the impacts on my event from construction work on the Presidio Parkway (Doyle Drive) Replacement Project.
