PRESIDIO KIDS

AMAZING ANIMAL MASKS
(Ages 3-12)

The Presidio is home to hundreds of animals, including insects, reptiles, amphibians, birds, and mammals. Celebrate the diversity of the animals who live in our national park site by making your own animal mask!

**Materials:**
There are a lot of options of materials that can be used for this craft, most of which can be found in the house.

- Paper (construction, recycled, computer, etc.) or felt
- Printed template of mask (optional)
- Scissors (required)
- Pens, crayons, paint, other decorative materials
- Ribbons, string, yarn, pipe cleaners, anything to attach mask

**Instructions:**
1. If you have a printer, print out one of the below animal templates. No printer? Draw an animal mask yourself (you can use our template for inspiration and scale).
2. Then use crayons, pens, or paint to add color and details to your animal.
3. Cut out your mask. Don’t forget to cut out the eyes!
4. Cut holes on each end of the mask and thread your ribbon or string through and you have your mask!
